**TAGLINE:** Charge your phone or laptop on the go!

**WHAT IS THE PRODUCT?** Limitless PowerPro Go - 3-In-1 is a portable wall charger that provides the fastest possible charge to devices from anywhere. With the 3-In-1 high-speed charging capabilities and a 10,000mAh battery, this device simplifies the daily chore of charging phones, tablets, compatible laptops, and more by removing the need for multiple adapters and constant access to a wall outlet.

### WHAT DOES THE PRODUCT DO?

1. 3 Fast charging method: It powers a wide range of devices with the USB-A Port, Type-C Port, or Wireless Charging Pad. It is compatible with 18W Type-C Power Delivery, 3.0A Quick Charge, and 5W, 7.5W, 10W Qi Certified Wireless Charging technology. Provides a fast charge to Apple, Samsung, Google, and virtually any mobile device. The Wireless Charger is designed to work with most lightweight cases up to 3mm.
2. Portable power bank: The long-lasting battery can recharge most phones up to two times on a single charge.
3. Retractable wall charger: This everyday charger serves double duty by recharging its internal battery while plugged into a wall charger and charging connected devices, simultaneously. The retractable prongs can hide away for traveling and convenient storage while on the go.
4. Powered digital display: The main power button controls the digital display and power source of the PowerPro Go. Now you can know exactly how much battery is remaining on the power bank with a digital battery level indicator.

### HIT POINTS:

- Put the power in your pocket with the PowerPro Go!
- Low battery and no access to a wall outlet won't be a problem ever again
- The foldable plug and compact design make this charger really portable

**WHY SHOULD THE AUDIENCE BUY IT?** It's easier than ever to charge from home, work, at concerts, or anywhere using the 10,000mAh built-in battery of the PowerPro Go. The automatic time-out feature ensures no power is ever wasted. Sleek design with a variety of color options, great gifts for anyone in your family from adults constantly using laptops to kids and their tablets.
