FAQ

How should I clean the Sauna Wrap?

The Sauna Wrap is not machine washable. Use a non toxic cleaning wipe or damp towel with mild detergent (see cleaning instructions found in this manual). For more information, please refer to the “Cleaning” section on the instruction manual.

Why doesn't my Sauna Wrap feel hot enough?

Preheating the device on level 3-5 for 10 minutes will allow the Sauna Wrap to reach full temperature. Check temperature with your hand prior to entering the sauna. If the temperature is too hot, adjust heat setting and check again after a few minutes before entering. For more information, please refer to the “Getting Started” section on the instruction manual.

What should I do if my controller won't turn the Sauna Wrap on?

Press and hold heat up button until the LCD display lights up. If the device still doesn't power up, unplug the cord from the outlet, wait 5 minutes, and plug the unit in again to reset it. For more information, please refer to the “Controller Features” section on the instruction manual.

What if I leave my Sauna Wrap on by accident?

The Sauna Wrap comes with a default 30 minute auto-off feature. This setting is adjustable in 15 minutes increments up to 4 settings for a total of 1 hour. The massage feature has a 15 minute auto-off feature.

FOR HOUSEHOLD USE ONLY

NORTH AMERICAN MODELS WITH POLARIZED PLUGS:

This appliance has a polarized plug (one blade is wider than the other). To reduce the risk of electric shock, this plug is intended to fit in a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician to install the proper outlet.

DO NOT ATTEMPT TO MODIFY THIS PLUG OR DEFEAT THIS SAFETY FEATURE IN ANY WAY.

INSTRUCTIONS

- 1. Plug into any 120 volt AC electrical outlet.
- 2. To power on the device, press and hold the heat up button for 1 second or until the LCD display light up.
NOTE: The default settings will be 4 for heat and 2 for the timer.
- 3. Quick press the heat up button to raise the heat intensity, or quick press the heat down to lower. Maximum intensity is level 8.
- 4. Quick press the timer button to select session time (max session level is 4 for 1 hr total). 1=15 min, 2=30 min, 3=45 min, 4=60 min
- 5. Lay the product flat on the floor and preheat the sauna wrap to heat up for 10 minutes prior to use.

CLEANING & STORAGE INSTRUCTIONS

DO NOT dry clean, bleach, or submerge in water. DO NOT machine wash.

Cleaning

The sauna wrap inner lining is water resistant, and we suggest cleaning the device after each use.

- 1) Make sure the device is unplugged and powered off.
- 2) If used recently, allow the wrap to cool down completely before cleaning.
- 3) Use a damp rag to wipe down any sweat.
- 4) Apply a mild detergent soap to a towel and wipe clean (Optional Non toxic cleaning wipes can be used to substitute for the detergent).

Storage

Ensure the device is cooled down 30 minutes prior to folding and storage.

- 1) Fold the sauna wrap in half vertically (lengthwise).
- 2) Take the bottom portion of the sauna and fold it in 3 equal sections.
- 3) Place the wrap in the original box for storage.
