WHAT IS THE PRODUCT? Portable professional-grade full-leg air compression massager + heat therapy to alleviate pain, accelerate recovery, and help you fully relax.

WHAT DOES THE PRODUCT DO?

1. Full leg massager and knee heating
2. Compression massage reduces inflammation and interrupts pain signals
3. 3 Intensities and 4 modes: The leg circulation machine comes with three intensities (Low-Middle-High), three modes, and an optional (targeted) heat knee massager for pain relief.
4. Relieves Pain
5. Promotes muscle recovery
6. Improves Blood Flow
7. Combats blood pooling, blood clots, restless legs syndrome, and cellulite
8. Prevents soreness, muscle fatigue, varicosity, muscle knots, and swollen veins

HIT POINTS:

- Reduce inflammation and interrupt pain signals with compression massage and heat
- Recover faster and do what you love without limitations
- Resume your active lifestyle in less time

WHY SHOULD THE AUDIENCE BUY IT?

Full leg coverage massage: An intensive workout regime requires ample recovery time to avoid injury and reach peak performance levels. The electric muscle stimulator machine targets your legs, loosening up tight muscles and breaking up stubborn knots. It promotes venous return and has the potential to drain excessive lactic acid, even with 1 hour of use per day!

Adjust every therapy session according to your needs for that day. Secure your legs with the attached straps, use the handheld remote control, sit back, and let your feet, calves, and thighs loosen up and just relax.

Increased blood flow decreased inflammation: As you get older, you might experience inflammation and soreness. You can use the leg compression massager for circulation daily or whenever needed to improve blood flow.

ADDITIONAL INFORMATION:

Portable: Put the massager in a compact bag that it comes with and bring it to your office or gym

Powerful: 3 airbags deliver impressive compression leading to truly therapeutic results

Universal Size: Adjustable fasteners ensure that the massager will fit you no matter what size you are

Simple Control: Play with the available configurations to find the mode that fits you best

Includes: 2 leg sleeves, travel bag, 4 leg extension wraps, remote control, AC Adapter, and user manual
