TAGLINE: Unique New Golf Training Device

WHAT IS THE PRODUCT? A unique new golf training tool, great for all levels, KlockitGolf is a great training aid for any golfer.

WHAT DOES THE PRODUCT DO?

1. Klockitgolf is the best way to focus on your club's face-to-ball impact, improve your strength, and grow your confidence on the course.
2. It helps golfers of all levels focus on hitting the ball in the "sweet spot" every time.
3. Helps you practice your swing and form using a real golf ball to help you get the feel of being on the course.
4. Helps you perfect your swing and deliver consistency which leads to better performance.
5. It's portable, well made, has no assembly, and can be used anywhere you have a small patch of grass.

HIT POINTS:

- No more worrying about losing golf balls or the kids breaking a neighbor's windows as the ball is attached and doesn't go anywhere.
- No more chasing balls or going to the range to take a few swings just do it in your yard.
- Great gift for those hard-to-buy people on your lists.

WHY SHOULD THE AUDIENCE BUY IT?

Woman-owned and invented by someone who wanted to learn to "Klockit".

Although a very simple idea does not exist in the market.

Has been referenced by many too as "tetherball for golf"

ADDITIONAL INFORMATION:

It consists of a real golf ball and nautical-grade rope to attach the ball for strength.

The biggest question is will it hit me? No, it literally can not hit you if you use it correctly.
